

The Rebirth of EFEC Beliefs System

We believe in God, in the nurturing of our families and embrace the laws that govern our needs and want as members of EFEC and as members of society.

We believe that a person is judged by the content of his/her character, and the membership seeks to strengthen it.

We understand that the purpose of education is to increase critical thinking, and the membership seeks to promote that.

We believe every individual who strives for a quality of life must be committed to a positive social network that EFEC membership offers.

We believe that challenges may be ahead and being proactive as a member will stand to the test of time.

We believe in the undertaking tasks with loyalty, passion, love and commitment, and the membership is geared towards the success outcome of our doing.

We believe in working smart through team effort and collaboration and active participated EFEC members are well equipped.

We believe that parents and adults have the responsibilities to pave the way for children and members must give them the independence to grow into good citizenship. We believe in the generosity of giving back to our community, exercise kindness as a role model to children and maintain the integrity of our belief as members.

Members Pledge

As a member of Educare for Exceptional Children, I commit to the virtues of wisdom and strive for academic excellence through collaboration, team effort and utilization of our community's resources effectively. In the pursuit of understanding, knowledge and wisdom, I acknowledged The Rebirth of EFEC Belief System on a faith in God, embracing individual differences and respecting the multiculturalism of our society. I dedicate my service to my family and extend it to others in accordance with the belief set forth in The Rebirth of EFEC Belief System.
